## Chapter 1 by SuperFolder Ghostbuster

I am not a human. I do not live on Earth. I plan to conquer the Earth with my army of martian warriors so that my troops could enslave the humans once and for all. Despite our superior technology, I am not sure our ships could withstand the weapons the humans call "nuclear missiles". Not even our force fields can withstand that. We're going to have to conquer an alien race with the technology to withstand it. We then set our sights on the planet Venus.
